DETAILED ACTION

1. Applicant's election with traverse of Group I, claims 1-11 in the reply filed on 4/28/06 is acknowledged. The traversal is on the ground(s) that no undue burden is placed on the Examiner to consider all claims in a single invention. This is not found persuasive because applicant has not sufficiently addressed the reasons for the restriction requirement as set forth in the communication mailed on 4/28/05.

The requirement is still deemed proper and is therefore made FINAL.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species:

- (1) the monomer species for recurring unit l.
- (2) the monomer species for recurring unit m (i.e. Y inclusive of the various claimed species expressed in claims 1, and 8-10).
- (3) the monomer species for recurring unit n.

Applicant is required under 35 U.S.C. 121 to elect a single ultimate disclosed species for each of the above (1)-(3) genera for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. In the case where specific species are not identified in the

Art Unit: 1713

claims, applicant is requested to elect a specific ultimate species from the specification. An alternative method of election is to identify an Example in the specification, which collectively exemplifies all the elected species. Currently, claims 1 and 12 are generic.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

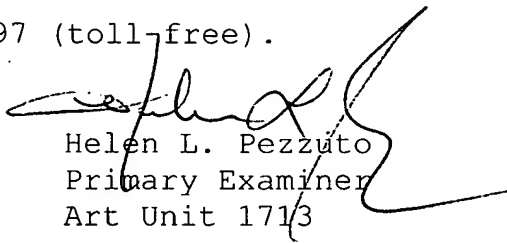

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Helen L. Pezzuto whose telephone number is (571) 272-1108. The examiner can normally be reached on 8 AM to 4 PM, Monday thru Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached
